TECHNICAL SKILLS

- HTML 5
- CSS 3
- Javascript (ES6+)
- Bootstrap
- React JS
- Node JS
- Express JS
- MongoDB
- Git
- Postman

EXPERIENCE

INTERN-WEB DEVELOPER   **Jan 2025 - Aug 2025**

Luminar TechnoLab, Calicut

- Contributed to the development of web applications.
- Collaborated with senior developers to design and implement features.
- Participated in code reviews and ensured adherence to coding standards.
- Gained hands-on experience with agile methodologies and version control systems.

PROJECTS

Redux Cart

Tech Stack: React.js, Redux Toolkit, JavaScript, CSS
Description:
Developed a dynamic and responsive shopping cart application using React and Redux Toolkit. The project demonstrates state management, cart functionality, and session persistence with a clean and user-friendly interface.
Key Features:

- State Management: Utilized Redux Toolkit for efficient and scalable global state handling.
- Cart System: Users can add, remove, and update item quantities in the cart in real time.
- Component Structure: Followed a modular and reusable component architecture.
- UI Design: Clean layout with responsive design principles for seamless cross-device performance.

EDUCATION

PG Diploma in Computer Applications   **2023-2024**

LBS Centre, Calicut
